

rrna Distribution – 3h

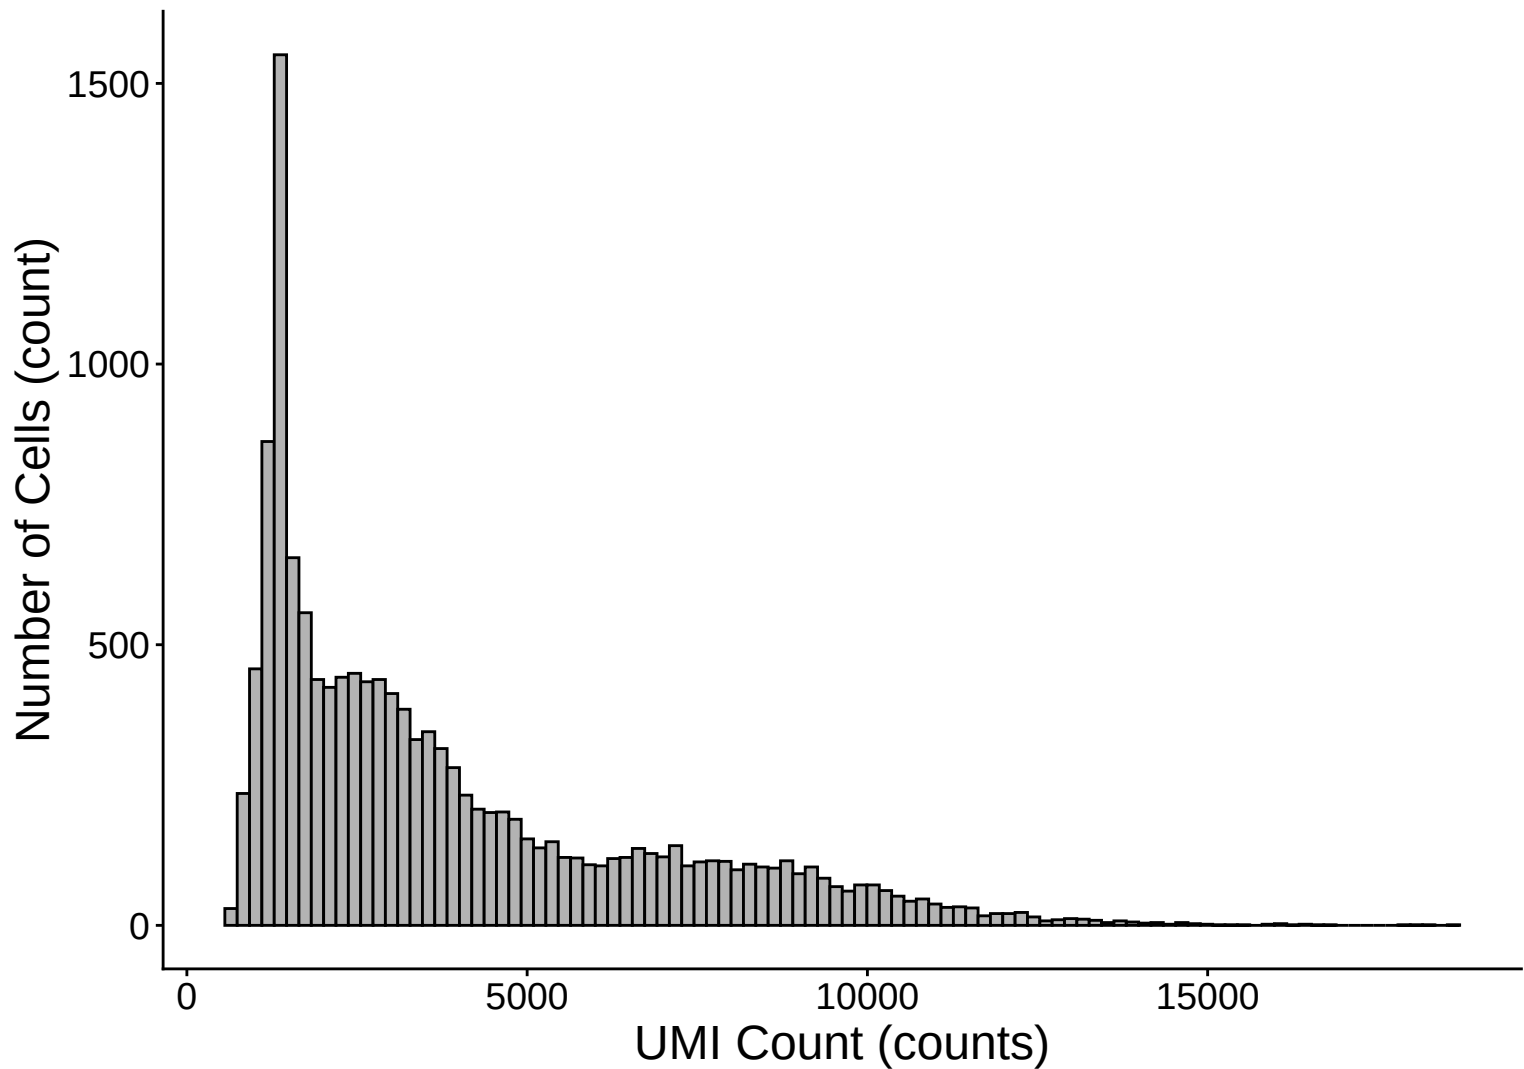

The figure is a scatter plot with a horizontal axis labeled $3h$ and a vertical axis. A vertical line is drawn at $3h$, dividing the plot into two regions. The left region ($3h < 0$) contains a dense cluster of points, while the right region ($3h > 0$) contains a more sparse distribution. The y-axis represents a probability density function, with a peak around $3h$.
